SUMMARY

Aspiring Software Development Engineer with a strong foundation in C, C++, Python, Flutter, JavaScript, and React.js. Currently pursuing B.Tech in Computer Science Engineering at Central University of Jammu. Passionate about building impactful, real-world software solutions. Experienced in web development, cloud computing, and generative AI applications. Eager to collaborate, learn, and contribute to innovative engineering teams.

EDUCATION

Central University of Jammu <i>Bachelor of Technology – Computer Science and Engineering</i>	Jammu, J&K, India <i>August 2025 – August 2029</i>
Central Hindu Boys School <i>Intermediate – Physics, Chemistry, Mathematics (PCM)</i>	India <i>2022 – 2024</i>

EXPERIENCE

ProductivAI <i>Founder and Developer</i>	Remote <i>January 2026 – Present</i>
- Founded and developed an AI-powered productivity platform, taking full ownership of product design, development, and deployment. - Applied skills in software engineering, generative AI, and full-stack development to build real-world solutions. - Managed end-to-end product lifecycle from ideation to implementation.	
Google Developers Group (GDG) <i>Volunteer – DSA Team</i>	Jammu, J&K, India <i>September 2025 – Present</i>
- Volunteered with the Data Structures and Algorithms (DSA) team, enhancing problem-solving skills under experienced mentors. - Collaborated with senior developers to solve complex algorithmic challenges and contribute to the local developer community.	
ShadowFox <i>Web Development Intern</i>	Jammu, J&K, India <i>September 2025</i>
- Completed a web development internship gaining hands-on experience in a real-world corporate environment. - Applied practical coding knowledge to build and maintain web features using modern development practices. - Developed professional skills including team collaboration, workplace adaptability, and agile project contribution.	

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, Dart
Frameworks & Libraries: React.js, Flutter
Cloud Platforms: Microsoft Azure, Google Cloud Platform (GCP)
AI/ML: Generative AI, Gemini API, Streamlit
Tools & Technologies: Git, GitHub, VS Code
Areas of Interest: Data Structures & Algorithms, Web Development, Mobile Development, Software Engineering

CERTIFICATIONS

The Basics of Google Cloud Compute <i>Google Cloud</i>	2025
Develop GenAI Apps with Gemini and Streamlit <i>Google Cloud</i>	2025
Skill Boost Arcade: Generative AI <i>Google Cloud</i>	2025
